

MOTOR-SKILLS COURSE

Early stimulation activity set

Modular motor-skills course, storage bag included

DESCRIPTION

A set of elements for setting up a complete motor-skills programme. The pieces combine freely to build many different courses — jumping, crawling, stepping over, aiming — and can be reconfigured from one session to the next with no additional equipment. Well suited to schools and early-years settings.

SET CONTENTS

Quantity	Item
12	Polyethylene cubes
2	Poles, 160 cm
12	Poles, 80 cm
20	Multi-function connectors for poles and hoops
4	Flat hoops, Ø 35 cm
4	Flat hoops, Ø 50 cm
6	Pairs of feet
6	Pairs of hands
12	Bean bags
1	Storage and carrying bag

KEY BENEFITS

- Fully reconfigurable courses: one set covers a whole progression.
- Multi-function connectors take both poles and hoops, varying heights and passages.
- Storage bag supplied: tidying away and transport in a single operation.

Please note — Motor-skills activities must be supervised by an adult.

Manufacturing and distribution — IBSGROUPE Ltd, as a turnkey supplier, handles the distribution, logistics, commissioning and after-sales service of this product. Manufacturing is carried out by the partner manufacturer, whose part numbers and specifications are reproduced above. *Non-contractual document: specifications may be changed by the manufacturer without prior notice; where the text and the illustration differ, the text prevails.*
