WIND 01
Physiotherapy table

Description

Electrical FTR BOBATH WIND 01.

WIND 01 is a special product that functionally meets the needs of patients and physiotherapists at a high level.
WIND 01 can be used safely in hospitals, physical therapy and rehabilitation centers, many different sports fields, workplaces,
elderly care homes and other health institutions. WIND 01 provides a high level of patient comfort during long and tiring sessions
with its 70 mm high 32 DNS HR foam top upholstery. (HR sponge: it is more comfortable than conventional sponges since the pressing
and shrinkage resistance values are close to each other)
WIND 01 Electric physiotherapy table makes the height movement with a linear actuator that produces 6000 N/m3 power working with
the help of electric hand control. Its strong steel construction meets security needs at the highest level. It has worked successfully in the
tests carried out using a weight of 310 Kg on the whole surface.
WIND 01 provides high stability and security thanks to its special foot structure. In addition, the semi-mobile structure makes it easy to
use. It is simple and practical product.

- Strong and durable structure made of steel profile
- Semi-mobile mobility, two antistatic wheels with brake and two specially designed fixed fee
- Height movement 450-850 mm with a linear actuator producing 6000 n/m3 power. 70 mm high 32 DNS HR foam top floor
- The sleeping surface is washable wipeable, anti-bacterial, liquid-proof, breathable, artificial leather. Weight : 200/250 gr/m2
- Accessory options can be integrated into WIND 01. (Towel Holder, Ergonomic Pillow)
- Clean and smooth appearance and easy-to-clean surfaces with electrostatic powder paint.
